

# ABOUT US

**'Iha Pragyan' is a hub under Iha Consulting Services set up in response to a challenge and opportunity for MSMEs. Workflow automation coupled with business intelligence will save small businesses time and money while enabling them to stay competitive in the emerging data-driven economy. 'Iha Pragyan' also offers high quality training and support bringing research ideas from the lab into the real world.**

**Creating an ed-tech platform for AI, through which Iha Pragyan prepares young talent suitable for solving industry's challenges by thorough knowledge sharing, product prototyping, trainings, live projects and internships for students and professionals in upskilling and revamping their skill sets.**

# • OBJECTIVES AND VISION

1.

To empower MSMEs through AI technological advancements for high growth

2.

To guide AI startups during critical development stages of product and prototyping.

3.

Assistance throughout the project lifecycle from initial R&D through commercialization.

## **VISION**

To develop a robust AI ecosystem for MSMEs

# AI Start-Ups

An ecosystem to nurture AI Startups

- **Pragyan would nurture startups during the critical stages of product development and prototyping.**
- **This would be an initiative in line with Govt. of India's Digital India and Make in India drives.**
- **This AI hub will be an end to end ecosystem to nurture AI startups, which would offer assistance throughout the project lifecycle from initial R&D through commercialization.**

# MSMEs

## INNOVATIVE APPLICATIONS OF AI FOR MSMEs

**Adaptation of AI technologies for MSMEs. Workflow automation coupled with business intelligence will save small businesses time and money while enabling them to stay competitive in the emerging data-driven economy.**

# MSMES

## INNOVATIVE APPLICATIONS OF AI FOR MSMES

- **Smart Logistics ( Route Optimisation, Yard management..)**
- **Smart Agriculture ( Disease Detection, Crop Insurance..)**
- **Smart Health Clinic ( Early Cancer detection, Skin disease detection, Eye disease detection, Diabetes prediction..)**
- **Smart & Safe Mobility and Accessibility ( Safe Driver Navigation App, Safe Parking tool, AI tools for Visual and Hearing Impaired)**
- **Smart Industry (Predictive maintenance, Supply chain management, Inventory Management, Intelligent e-marketplace)**

# MSMEs

## INNOVATIVE APPLICATIONS OF AI FOR MSMEs

**Quality standards**

**Global recognition**

**Maximum production**

**Supply chain management**

**Cost minimization**

# MSMES

## INNOVATIVE APPLICATIONS OF AI FOR MSMES

AL & ML, Python, Image Processing, Computer Vision, Deep Learning  
Trainings & EDPs

### Diplomas

- **Data Science and Machine Learning**
- **Machine Learning & Deep Learning with Python**
- **AL & Machine Learning with 'R' and Python**

OR FOCUS ON RESPONSIBLE AI

## COURSES

- 1 )Data Science
- 2) Data Analytics
- 3) Web Development
- 4) Business Development
- 5) Cyber Security
- 6) Artificial Intelligence
- 7) Machine Learning

**\$317**

## DATA SCIENCE

Data Science is all about “using various techniques, algorithms to analyze large amounts of datasets (both structured & Unstructured), to extract useful data insights, thus applying them in various business domains.”

## BUSINESS ANALYTICS

Business analytics takes a data-driven approach to the world of business, using statistics and data modeling to develop new business insights. This blend of technology and business makes it an ideal study option for anyone with an interest in programming or working with big data.

**\$211**

**\$105**

## WEB DEVELOPMENT

Web development is the work involved in developing a website for the Internet or an intranet. Web development can range from developing a simple single static page of plain text to complex web applications, electronic businesses and social network services.

# WEEKLY DURATION

## DATA SCIENCE

### TABLE OF CONTENTS

1. Introduction to Data science
2. Business Statistics
3. Python for Data Science
4. Acquittance with EDA
5. Machine Learning and Deep Learning
6. Deploying ML and DL models
7. Real world Implementation
8. Analytical Visualization in Tableau
9. Additional Support

#### **week 1-4**

1. INTRODUCTION TO DATA SCIENCE
2. BUSINESS STATISTICS

#### **week 5-8**

3. PYTHON FOR DATA SCIENCE
4. ACQUITTANCE WITH EDA

#### **week 9-12**

5. ANALYTICAL VISUALIZATION IN TABLEAU

#### **week 13-16**

6. MACHINE LEARNING AND DEEP LEARNING

#### **week 17-20**

7. DEPLOYING ML AND DL MODELS

#### **week 21-24**

8. REAL TIME PROJECT

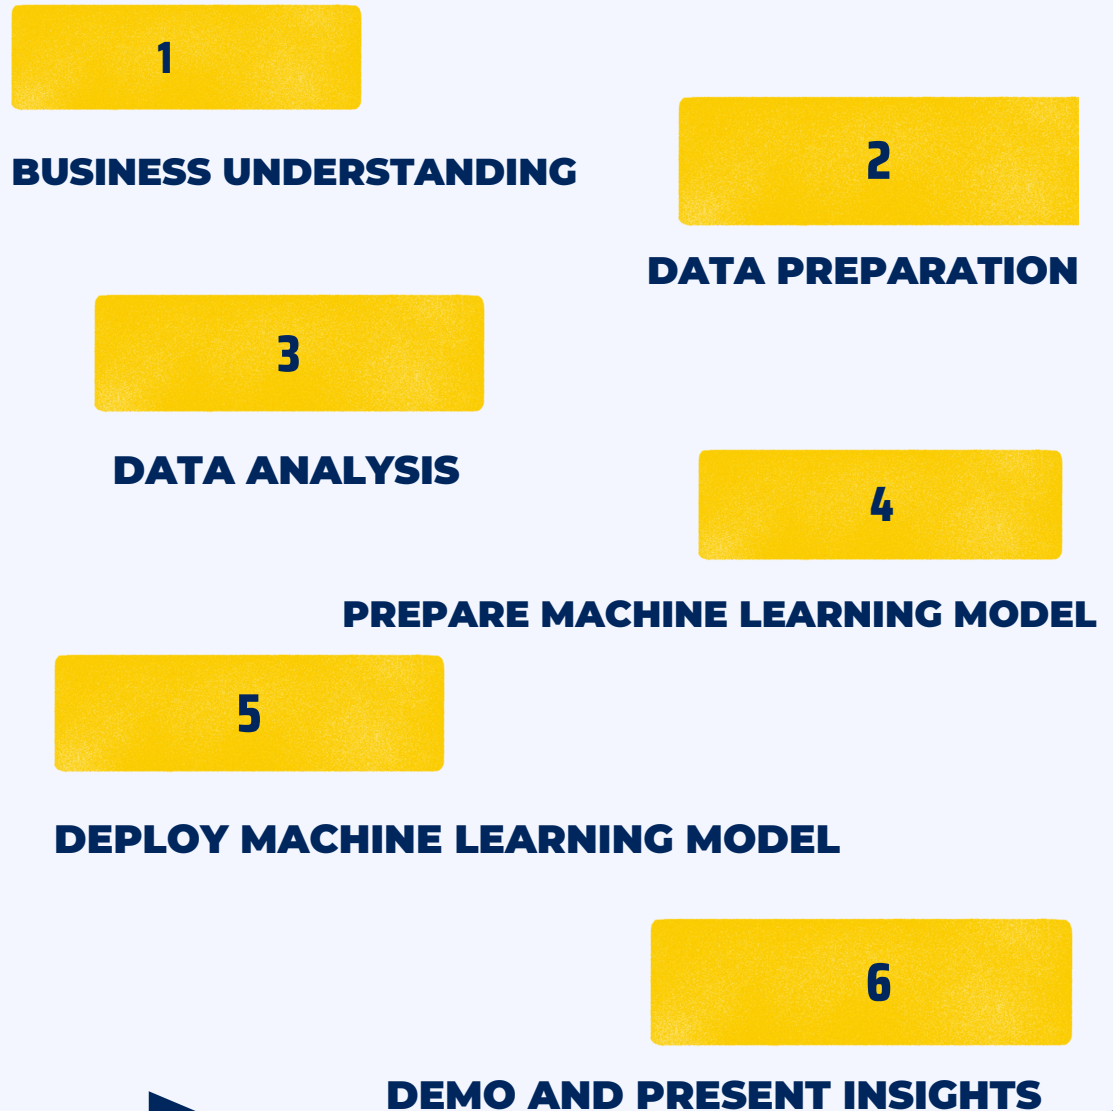

# REAL TIME PROJECTS

## INDUSTRY DOMAINS

- HEALTHCARE
- LOGISTICS
- TRANSPORTATION
- SECURITY
- AGRICULTURE
- MANUFACTURING  
& MANY MORE

## PROJECT STRUCTURE

# PROFILES

1

**MARKETING AND BUSINESS DEVELOPMENT**

2

**DATA SCIENCE**

3

**DIGITAL MARKETING**

4

**WEB DEVELOPMENT**

5

**HUMAN RESOURCE**

6

**CONTENT WRITING**

**EXCITING  
INTERNSHIP  
OPPORTUNITIES**
